

WELCOME TO OUR FOURTH REAL ALE & CIDER FESTIVAL

If you have attended any of our previous Festivals, welcome back, and if this is your first time then a warm 'hello' from everyone here.

We're delighted to be welcoming you to our wonderful Portal building, the second of these festivals to be held here.

Dudley Canal & Tunnel Trust have existed under various names for over 60 years. Since the very first meeting of interested individuals in a local pub up in Dudley Town, The Gypsies Tent Inn, we have been dedicated to the preservation of the Dudley Tunnel and the unique and special network of limestone mines, caverns and canal tunnels that are hidden underneath Dudley.

Today, our main charitable aims of looking after the tunnel and helping the public to see what lies beneath the ground are just as important to us as they ever were. If you'd like to see this very special piece of the country's industrial heritage for yourself just hop on a boat trip - we run our 45 minute trip every 30 minutes from 10.30am daily.

Events like this Real Ale and Cider Festival might seem to be a long way from geology and mining, however they're just one part of a much larger programme of events and activities that we run throughout the year to raise money to support our charitable aims. From craft activities for families to boat trips to see Santa, we have a wide variety of events on offer to suit all ages. Have a look at our website to see for yourself.

Thank you for supporting us, and we hope you enjoy the Festival!
